EDUCATION

UOWM KDU PG UC

- Bachelor of Computer Science
- 2024 – Present
- CGPA: 3.07

SEGI College Penang

- Diploma in Information Technology
- 2021 – 2024
- CGPA: 3.30

SKILLS

- **AI / Machine Learning:** TF-IDF, Logistic Regression, SVM, CNN, OCR, Speech-to-Text
- **Programming Languages:** Python, Java, PHP, JavaScript,
- **Web Development:** React, HTML, CSS
- **Database & Tools:** MySQL, GitHub, Tinkercad

LANGUAGES

- English
- Mandarin
- Bahasa Melayu

LIM SZE MEI

COMPUTER SCIENCE STUDENT

PROFILE

Computer Science student with hands-on experience in web development, machine learning and STEM education. Currently developing a **multi-modal scam detection system** using text, image and voice analysis. Skilled in **Python, Java, PHP, JavaScript, SQL, OCR and speech-to-text**. Seeking a **12-week Final Year Internship** placement from **14 Sept to 6 Dec 2026**.

PROJECT

AI-Driven Scam Detection System Jan 2026 - Present

Final Year Project | Python, Machine Learning, OCR, Speech-to-Text

- Designed a multi-modal framework with 3 dedicated AI models for text scam classification, image tampering detection and human versus AI-generated voice classification.
- Compared TF-IDF with Logistic Regression, Naive Bayes and SVM for text, MobileNetV2 with ResNet50 for images and MFCC with SVM and Random Forest for voice.
- Engineered a two-stage routing pipeline that verifies image and voice authenticity before using OCR and speech-to-text to analyse extracted content through the text model.
- Developing rule-based fusion and weighted risk scoring to combine multi-modal outputs into a unified confidence score with explainable results.

Bookkeeping Jul 2023 - Nov 2023

Diploma Project | PHP, MySQL, HTML, CSS, JavaScript

- Developed a bookkeeping system for recording daily income, expenses and transaction history.
- Designed a MySQL database to manage financial records, reminders and user bookkeeping data.
- Built budgeting and expiry reminder features to support financial planning and payment tracking.

EXPERIENCE

Intern — Tech Dome Penang Jan 2024 - Mar 2024

- Supported STEM workshops covering 3D printing, robotics, AR/VR and basic computer software.
- Developed a responsive workshop webpage using HTML, CSS and JavaScript.
- Prepared beginner learning materials for Python programming and web development.
- Guided students through hands-on activities using TinkerCad, 3D printers, robots and electronic kits.
- Assisted with workshop setup, project testing, presentation materials and internal documentation.
